

Elevate Procurement Efficiency with **Zones and Axia** **Cooperative**

UNLOCKING DIGITAL TRANSFORMATION IN THE PUBLIC SECTOR

Digital transformation remains a critical challenge for the public sector, yet its full potential remains untapped. Zones, as your trusted IT partner, is here to bridge that gap, empowering you to adopt new technologies and enhance the services you provide.

Here's how Zones' digital transformation solutions benefit the public sector:

1. Streamlined deployment and configuration services.
2. Workplace transformation for enhanced productivity.
3. Improved data security through robust identity management.
4. Strong defenses against cyber threats.
5. Utilization of artificial intelligence and automation for superior service delivery.
6. Leveraging data analytics for actionable insights.

ABOUT ZONES

With over 30 years of expertise, Zones is a premier global provider of IT solutions and services. We specialize in delivering comprehensive solutions that address your unique challenges today while preparing you for tomorrow's demands. At Zones, we're dedicated to driving your digital transformation journey forward, ensuring you better serve your community.

ZONES' PARTNERSHIP WITH AXIA COOPERATIVE

Zones partners with Axia Cooperative to put our public sector customers front and center with a comprehensive and compliant cooperative purchasing program. With the Axia contract, publicly solicited and awarded by the City of Tucson, AZ, we deliver a comprehensive offering, competitive pricing, and a seamless procurement experience. The agreement was developed through a strict competitive process, ensuring the highest standards of quality and reliability. Together, Zones and Axia Cooperative are breaking down barriers and making cutting-edge technology more accessible and affordable to public agencies across America.
